ADDITIVES

Neutralizing rinse additive

80% ACETIC ACID

Neutralizing washing machine additive. Reduces pH during rinsing after using a highly alkaline detergent.

Washing machine

Concentrated

- ✓ Neutralizes alkaline pH
- ✓ Improves cleaning

Plastic jerry can*

Bleach and sanitizing additive

35% HYDROGEN PEROXIDE

It is used in the washing cycle of professional washing machines during the sanitizing and bleaching phase. Thanks to its oxidizing power, that is, its ability to release oxygen, it is used to pre-treat stains and eliminate bad odors from fabrics.

Washing machine

Concentrated

- ✓ Bleaches and sanitizes
- ✓ Removes stains and odors
- ✓ Pre-treats fabrics
