FLICK OVEN

Concentrated degreasing cleaner for self-cleaning ovens

Concentrated alkaline degreaser designed for use on self-cleaning ovens. It removes stubborn stains, including burnt-on grease, in a single cycle. Can be used with all self-cleaning and convection ovens. **Avoid contact with aluminum parts.**

- > Strong degreasing action
- > Potassium-based formula

Can 5Kg - 10Kg

- Low environmental impact <
- No phosphates. No phosphorus. <
- No EDTA. Eco-friendly. <
- Doubling washing action <

Can 5Kg - 10Kg

NEW

FLICK OVEN NP

Powerful phosphate-free cleaner for self-cleaning ovens

Liquid alkaline detergent for self-cleaning ovens with low environmental impact. Its formula is indeed free of phosphates, phosphorus, and EDTA. It ensures a more vigorous cleaning action, which allows for reducing the amount of detergent used and also removes the most stubborn residues.

OVEN LIQUID 2 ACT

Degreaser and rinse aid for self-cleaning ovens

Cleaner with a polishing action designed for use on self-cleaning ovens. It removes the most stubborn dirt, including burnt grease, in a single cleaning cycle. It can be used with all self-cleaning and convection ovens. Its polishing action leaves the oven cavity shiny and streak-free.

- > Degreasing and rinse aid action
- > Potassium-based formula

Can 5Kg - 10kg

- Low environmental impact. <
- No phosphates. No phosphorus. No EDTA. <
- Double cleaning action. <

Can 5Kg - 10kg

NEW

OVEN 2 IN 1 NP

Alkaline detergent with cleaning and rinse aid action for self-cleaning ovens

A formula designed to achieve a low environmental impact by not containing phosphates, phosphorus, or EDTA. In addition to focusing on the effluents from the washing cycle, its cleaning power has been greatly enhanced to allow for better cleaning of the chamber. This concentrated formula helps reduce the amount of detergent used and removes even the most stubborn dirt, such as burnt grease.

RINSE OVEN

Acid-based rinse aid for self-cleaning ovens

Designed as an additive in the final cycle of self-cleaning ovens. By reducing the surface tension of the rinse water, it facilitates the immediate drying of the oven surface. It is even suitable with hard water.

- > Suitable for hard water
- > Quick drying without halos

Can 5kg - 10kg

- < Citric-based formula
- < Suitable for hard water
- < Contains corrosion inhibitors

Can 5kg - 10kg

REMO KAL ECOL

Ecological organic-based limestone descaler

Concentrated limestone descaler, based on citric acid, designed for the removal of limescale residues in the chamber, heating elements, and boilers of self-cleaning ovens. The product's action is effective while preventing any damage to parts made of soft metals and contact seals. It contains corrosion inhibitors.

Eco friendly

PASTIGLIE

OVEN SENSITIVE TAB 55g

Detergent tablets based on potassium salts for self-cleaning ovens

Powder detergent tablets with powerful degreasing and decarbonizing action, for cleaning self-cleaning ovens. They include a sanitizing function that reduces residual bad odors.

- > Suitable for very stubborn dirt
- > Non-aggressive on oven components
- > Remove odors and carbon residues

Bucket 120 pcs

- < No phosphates. No phosphorus.
- < No EDTA
- < Reinforced descaling action
- < Rapid solubilization

Bucket 120 pcs

NEW

OVEN GREEN TAB 55g

Low environmental impact cleaning tablets for self-cleaning ovens

Detergent tablets not containing phosphates, phosphorus and EDTA, generating low-impact wastewater. Their formula is even more concentrated, ensuring greater cleaning power on dirt while preventing any damage to parts in contact with the solution.

Eco friendly

OVEN GREEN TAB 30g

NEW

Low environmental impact cleaning tablets for self-cleaning ovens

An innovative concentrated formula always ensuring maximum cleaning power on dirt while preventing any damage to parts in contact with the solution.. This highly effective formula does not contain phosphates, phosphorus end EDTA.

- > No phosphates. No phosphorus. No EDTA
- > Reinforced descaling action

Bucket 150 pcs

Degreasing and rinse aid action <
Removes burnt grease <

Bucket 120 pcs

DET & RINSE TAB 55g

Detergent tablet with rinse aid action for self-cleaning ovens

Powder tablet designed to achieve a vigorous and brilliant cleaning action in the chamber of professional ovens with an automatic cleaning cycle. It removes cooking residues and leaves the chamber shiny without streaks.

RINSE & DESCALING TAB 55g

Rinse aid tablet with decalcifying action for self-cleaning ovens

Powder tablet designed to provide a rinse aid and decalcifying action in professional oven chambers with an automatic cleaning cycle. The substances contained are not aggressive on contact materials.

- > Rinse aid action in the chamber
- > Effective on limescale
- > Does not damage the oven components

Bucket 120 pcs

Fast dissolution <
Effective on limescale <
Shining action in the chamber <

Bucket 150 pcs

RINSE & DESCALING TAB 3 x 8g

NEW

Rinse aid tablets with descaling action for self-cleaning ovens

Tablets with decalcifying and rinse aid action for self-cleaning ovens. Designed in the 8 g wheight to facilitate and reduce the solubilization time in any type of oven, maximizing the results of the shining and descaling action.

POWDER

GREEN OVEN CLEANER POWDER 55g

Low environmental impact cleaning powder for self-cleaning ovens

NEW

Detergent powder designed for the maintenance cycle of self-cleaning ovens. The 'powder' formula significantly reduces the time usually dedicated to dissolving compacted forms, allowing a substantial amount of time to be used for the cleaning action.

- > No phosphates. No phosphorus. No EDTA
- > Double cleaning action
- > Fast solubilization

Bucket 100 pcs

NEW

OVEN POWDER DESCALER 55g

Citric-based descaling powder

Formula designed for the descaling and rinse aid phase in the maintenance cycle of self-cleaning ovens. The powder formula significantly reduces the time usually required for solubilization, thus allowing more time to be dedicated to the descaling action.

Aggressive action on limestone <
Rapid solubilization <

Bucket 100 pcs

CLEANING AND MAINTENANCE

FORNOLUX PLUS

Powerful manual descaler for ovens

Strong descaler for manual use, dedicated to cleaning the oven chamber. If left on a hot surface, it also removes the most stubborn carbon residues.

- > Potassium-based formula
- > Effective on carbon residues
- > Fast-action

Can 5Kg - 10Kg
Bottle 750ml

SPRAY KIT for FORNOLUX PLUS

NEW

An easy-to-assemble kit for canisters and 750 ml bottles. Very useful and effective for removing dirt and grease accumulated on equipment, while maintaining a safe distance from the chemical and its fumes.

Ideal for removing persistent limescale deposits.
Can be used for extraordinary oven maintenance.

Anphora 6Kg

REMO KAL HW

Manual descaler for the removal of limescale deposits

Strong descaler for the removal of limescale deposits. Can be manually used for extraordinary maintenance of ovens. Even effective as a deoxidizer for metal surfaces. Can be used in presence of hard water. Contains inhibitors preventing the formation of limescale on treated surfaces.
