

TECHNICAL DATA SHEET

OVEN GREEN TAB 30g

LOW ENVIRONMENTAL IMPACT CLEANING TABLETS FOR SELF-CLEANING OVENS

Powder tablets perfectly suited for professional ovens with automatic washing systems. They remove cooking residues in combi ovens, remaining gentle on contact surfaces while being powerful and effective during the cleaning cycle of the chamber.

These cleaning tablets are even more environmentally friendly thanks to their highly effective formulation, free from phosphates, phosphorus, and the chelating agent EDTA. Moreover, they contain a high concentration of cleaning ingredients, allowing for a reduced quantity to be used.

These 30 g tablets ensure excellent cleaning results even during intermediate and ultra-fast washing cycles available in all combi ovens.

CHARACTERISTICS

Caustic-based powder tablets

INSTRUCTION FOR USE

- Place the tablet in the designated compartment indicated by the oven manufacturer. If no compartment is provided, insert the tablet on the chamber rack before starting the solubilization cycle as specified by the manufacturer.
- Insert the number of tablets according to the washing instructions provided by the oven manufacturer.
- The tablet must be properly dissolved in order to perform its degreasing and decarbonizing action on the treated parts. Therefore, a water temperature of at least 85°C is recommended to complete its dissolution phase.
- At the end of the washing phase, always start rinse cycles
- Always handle the tablet with protective gloves.

PRECAUTIONS

Store the product in a cool, dry place, out of reach of children and pets. Use only as directed and avoid direct contact with skin or eyes. In case of accidental ingestion, consult a doctor immediately and show the product label or packaging.

Refer to the safety data sheet.
